ICAIN-2026
International Conference on Artificial Intelligence and Networking

26th -28th November 2026
Organized by
Universal Inovator & UI-Educon
In association with
Indian Institute of Information Technology, Allahabad

********** CALL FOR PAPERS **********

SPECIAL SESSION ON

Emerging Applications & Interdisciplinary Computing: High-Performance and Cloud Computing and Internet of Things (IoT)

SESSION ORGANIZERS:

Dr. Anup Lal Yadav
Associate Professor
Computer Science and Engineering
School of Engineering and Technology,
CGC University Mohali, Punjab, India 140307
anupsaran@gmail.com

EDITORIAL BOARD: (Optional)

Dr. Radziah Binti Mohamad
University Technology Malaysia (UTM), Malaysia
Email: radziahm@utm.my

SESSION DESCRIPTION:

This special session focuses on emerging trends and interdisciplinary research in High-Performance Computing (HPC), Cloud Computing, and Internet of Things (IoT). It highlights innovative architectures, scalable computing models, edge-cloud integration, real-time data analytics, and AI-driven intelligent systems. The session aims to explore performance optimization, security, energy efficiency, and resource management challenges in distributed and interconnected environments. Applications span smart cities, healthcare, agriculture, industrial automation, and cyber-physical systems. Researchers and industry practitioners are invited to present novel methodologies, experimental studies, and real-world implementations that demonstrate the transformative impact of

integrated computing technologies in addressing complex scientific and societal problems.

RECOMMENDED TOPICS:

1. High-Performance Computing (HPC) Architectures and Applications
2. Parallel and Distributed Computing Techniques
3. Cloud Computing Models and Service Architectures (IaaS, PaaS, SaaS)
4. Edge and Fog Computing Paradigms
5. Internet of Things (IoT) Frameworks and Communication Protocols
6. Edge–Cloud–IoT Integration and Hybrid Architectures
7. AI and Machine Learning in Cloud and IoT Environments
8. Security, Privacy, and Trust Management in Distributed Systems
9. Resource Management, Load Balancing, and Performance Optimization
10. Applications in Smart Cities, Healthcare, Agriculture, and Industry 4.0

SUBMISSION PROCEDURE:

Researchers and practitioners are invited to submit papers for this particular theme session on **Emerging Applications & Interdisciplinary Computing: High-Performance and Cloud Computing and Internet of Things (IoT) 30th Aug 2026**. All submissions must be original and may not be under review by another publication. INTERESTED AUTHORS SHOULD CONSULT THE CONFERENCE'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at https://www.icain-conf.com/downloads. All submitted papers will be reviewed on a double-blind, peer-review basis.

NOTE: While submitting a paper in this special session, please specify [Session Name] at the top (above paper title) of the first page of your paper.
