

ICAIN-2026 International Conference on Artificial Intelligence and Networking

26th -28th November 2026

Organized by

Universal Innovator & UI-Educon

In association with

Indian Institute of Information Technology, Allahabad

***** CALL FOR PAPERS *****

SPECIAL SESSION ON

AI for Societal Good: Scalable, Ethical and Intelligent Systems for Global Impact

SESSION ORGANIZERS:

Dr. Ruchi Kaushal Sharma, NMIMS Mumbai, India, ruchi.k6508@gmail.com

Dr. Keshav Kaushik, Sharda University officialkeshavkaushik@gmail.com

SESSION DESCRIPTION:

The rapid advancement of artificial intelligence has created unprecedented opportunities to address complex societal challenges across healthcare, education, sustainability, governance, and inclusive development. This special session aims to explore cutting-edge research that leverages AI, machine learning, deep learning, and intelligent systems to design scalable, interpretable, and ethically responsible solutions for societal good.

The session emphasizes interdisciplinary integration of AI with real-world systems, focusing on robustness, fairness, transparency, and deployment feasibility in resource-constrained environments. Contributions are expected to demonstrate innovative methodologies, real-world applications, and measurable societal impact, bridging the gap between theoretical advancements and practical implementations.

This session will foster dialogue among researchers, practitioners, policymakers, and industry experts to advance AI-driven frameworks that promote equitable access, sustainability, and human-centric innovation aligned with global development goals.

Edit with WPS Office

RECOMMENDED TOPICS:

Topics to be discussed in this special session include (but are not limited to) the following:

- AI for Healthcare: Disease prediction, medical imaging, personalized treatment systems
- Explainable AI for High-Stakes Decision Making in Public Systems
- AI in Education: Adaptive learning systems, intelligent tutoring, accessibility solutions
- AI for Smart Cities: Traffic optimization, energy management, urban analytics
- Climate Change and Sustainability using AI: Environmental monitoring, carbon footprint prediction
- AI for Agriculture: Precision farming, crop disease detection, yield optimization
- AI in Disaster Management: Early warning systems, crisis response automation
- Ethical AI and Fairness: Bias mitigation, accountability, trustworthy AI systems
- AI for Social Inclusion: Assistive technologies for differently-abled individuals
- Multimodal AI and Vision-Language Models for Societal Applications
- AI in Governance: Policy analytics, fraud detection, public service optimization
- Edge AI and Low-Resource Deployment for Rural and Underserved Regions
- Generative AI for Social Innovation and Public Engagement
- AI for Cybersecurity in Critical Infrastructure Systems

SUBMISSION PROCEDURE:

Researchers and practitioners are invited to submit papers for this particular theme session on AI for Societal Good: Scalable, Ethical and Intelligent Systems for Global Impact on or before 30th August 2026. All submissions must be original and may not be under review by another publication. Interested authors should consult the conference's guidelines for manuscript submissions at

<https://www.icain-conf.com/downloads>.

All submitted papers will be reviewed on a double-blind, peer-review basis.
