

ICAIN-2026
International Conference on Artificial
Intelligence and Networking

26th -28th November 2026
Organized by
Universal Inovator & UI-Educon
In association with
Indian Institute of Information Technology, Allahabad

******* CALL FOR PAPERS *******

SPECIAL SESSION ON: AI-Driven Intelligent Networking: Emerging Trends, Applications and Future Directions

Dr. Madhumala R Bagalatti,

Professor & Head, Department of CSE – IoT, Cybersecurity and Blockchain,
Dayananda Sagar Academy of Technology and Management, Bengaluru, Karnataka, India
madhumalabagalatti@gmail.com dr.madhumala-cse@dsatm.edu.in

Dr. Tanvir H Sardar

Professor, Department of Computer Science and Engineering,
Dayananda Sagar University, Bengaluru, Karnataka, India
tanvir.sardar@gmail.com, tanvir-cse@dsu.edu.in

Dr. Mazhar Malik

Professor, Bradford University, England, United Kingdom
Mazhar.Malik@uwe.ac.uk

EDITORIAL BOARD:

Dr. Madhumala R Bagalatti,

Professor & Head, Department of CSE – IoT, Cybersecurity and Blockchain,
Dayananda Sagar Academy of Technology and Management, Bengaluru, Karnataka, India
madhumalabagalatti@gmail.com dr.madhumala-cse@dsatm.edu.in

Dr. Tanvir H Sardar

Professor, Department of Computer Science and Engineering,
Dayananda Sagar University, Bengaluru, Karnataka, India
tanvir.sardar@gmail.com, tanvir-cse@dsu.edu.in

SESSION DESCRIPTION:

This session explores the convergence of **Artificial Intelligence (AI) and intelligent networking**, focusing on emerging technologies, methodologies, and applications that are transforming modern communication and networked systems. The session will discuss AI-driven approaches for **network optimization, intelligent resource management, anomaly and intrusion detection, predictive analytics, autonomous network management, and secure communication**. It will also highlight the role of **Machine Learning, Deep Learning, Edge AI, IoT, and Generative AI** in developing adaptive, efficient, and resilient networks. The session aims to provide researchers, academicians, industry professionals, and practitioners with insights into recent advancements, practical challenges, research opportunities, and future directions in AI-enabled networking.

RECOMMENDED TOPICS:

Topics to be discussed in this special session include (but are not limited to) the following:

- Artificial Intelligence for Communication Networks
- Machine Learning and Deep Learning in Networking
- Intelligent Network Management and Automation
- AI-Driven Network Optimization and Resource Allocation
- Software Defined Networking (SDN) and Network Function Virtualization (NFV)
- AI for 5G/6G and Next-Generation Networks
- Edge AI and Edge Computing
- Internet of Things (IoT) and Intelligent Connectivity
- Cybersecurity, Intrusion Detection, and Threat Intelligence using AI

SUBMISSION PROCEDURE:

Researchers and practitioners are invited to submit papers for this particular theme session on **AI-Driven Intelligent Networking: Emerging Trends, Applications and Future Directions**

on or before [30th August 2026]. All submissions must be original and may not be under review by another publication. INTERESTED AUTHORS SHOULD CONSULT THE CONFERENCE'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at <https://www.icain-conf.com/downloads>. All submitted papers will be reviewed on a double-blind, peer-review basis.

NOTE: While submitting a paper in this special session, please specify [Session Name] at the top (above paper title) of the first page of your paper.
