

ICAIN-2026
International Conference on Artificial
Intelligence and Networking

26th -28th November 2026
Organized by
Universal Inovator & UI-Educon
In association with
Indian Institute of Information Technology, Allahabad

******* CALL FOR PAPERS *******

SPECIAL SESSION ON

Converging Technology and its Applications in Agentic AI in Healthcare Domain

SESSION ORGANIZERS:

Dr. Sonali Vyas, JKLU, Jaipur
E-mail: researcher.vyas@gmail.com
Mobile: + 91 - 8619867814

Dr. Shaurya Gupta, UPES, Dehradun
E-mail: shaurya.gupta@ddn.upes.ac.in
Mobile: +91-9829393960

Dr. Vinod Kumar Shukhla, Amity University, Dubai
Email : vinodkumarshukla@gmail.com
Mobile : +971581051060

SESSION DESCRIPTION:

The Special Session on "**Converging Technologies and their Applications in Agentic AI in Healthcare**" aims to provide a premier interdisciplinary platform for researchers, academicians, healthcare professionals, industry practitioners, and policymakers to present and discuss the latest advancements in Agentic Artificial Intelligence and its transformative role in modern healthcare. The session seeks to foster innovative research that integrates intelligent autonomous agents with emerging technologies such as Machine Learning, Deep Learning, Large Language Models (LLMs), Internet of Medical Things (IoMT), Big Data Analytics, Cloud and Edge Computing, Blockchain, Digital Twins, Robotics, Computer Vision, Cybersecurity, and Explainable AI to develop intelligent, adaptive, and trustworthy healthcare systems.

The scope of this special session encompasses both theoretical and applied research focusing on the design, development, deployment, and evaluation of Agentic AI systems capable of autonomous reasoning, decision-making, planning, collaboration, and continuous learning in healthcare environments. This special session aims to promote collaboration among researchers from computer science, artificial intelligence, biomedical engineering, healthcare informatics, medical sciences, and allied disciplines to explore next-generation intelligent healthcare solutions driven by converging technologies and Agentic AI. It welcomes original research papers, industrial case studies, novel frameworks, algorithms, architectures, applications, and experimental evaluations that contribute to advancing autonomous, secure, explainable, and trustworthy healthcare systems.

RECOMMENDED TOPICS:

Topics to be discussed in this special session include (but are not limited to) the following:

- **Agentic AI for Clinical Decision Support Systems**
- **Autonomous AI Agents for Personalized Healthcare**
- **Multi-Agent Systems in Smart Hospitals**
- **Collaborative AI Agents for Healthcare Workflow Automation**
- **Reinforcement Learning-based Medical Decision Agents**
- **Explainable Agentic AI (XAI) in Clinical Applications**
- **Big Data Analytics for Precision Medicine**
- **Predictive Analytics for Disease Forecasting**
- **Healthcare Data Mining and Knowledge Discovery**

SUBMISSION PROCEDURE:

Researchers and practitioners are invited to submit papers for this particular theme session on **Converging Technology and its Applications in Agentic AI in Healthcare Domain on or before [30th August 2026]**. All submissions must be original and may not be under review by another publication. INTERESTED AUTHORS SHOULD CONSULT THE CONFERENCE'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at <https://www.icain-conf.com/downloads>. All submitted papers will be reviewed on a double-blind, peer-review basis.

NOTE: While submitting a paper in this special session, please specify Converging Technology and its Applications in Agentic AI in Healthcare Domain at the top (above paper title) of the first page of your paper.
