

ICAIN-2026
International Conference on Artificial
Intelligence and Networking

26th -28th November 2026
Organized by
Universal Inovator & UI-Educon
In association with
Indian Institute of Information Technology, Allahabad

******* CALL FOR PAPERS *******

SPECIAL SESSION ON

**Intelligent and Secure Networks: AI and Blockchain for IoT and Next-
Generation Communication Systems**

SESSION ORGANIZERS:

Dr. Faisal Rasheed Lone, Assistant Professor (Senior Scale), UPES
Dehradun, India, fasulone@gmail.com/faisal.lone@ddn.upes.ac.in

Dr. Azra Nazir, Assistant Professor (Senior Scale), UPES Dehradun,
India, azra.iust@gmail.com/azra.nazir@ddn.upes.ac.in

Dr. Tawseef Ayoub Sheikh, Assistant National Institute of Technology,
Srinagar J&K, India, tawseef.shaikh@nitsri.net

Dr.

EDITEDITORIAL BOARD: (Optional)

Editorial Board members to be constituted

SESSION DESCRIPTION:

The rapid expansion of connected devices, wireless networks, and distributed systems has made security, trust, and intelligence central concerns across the Internet of Things (IoT), vehicular and wireless networks, cloud/edge infrastructures, and cyber-physical systems. This special session brings together researchers and practitioners working at the intersection of Artificial Intelligence, Blockchain, and Security to address these challenges across networked and IoT-enabled systems. It welcomes contributions on machine learning and deep learning for intrusion and anomaly detection, blockchain-based trust and identity management, privacy-preserving protocols, and secure architectures for IoT, vehicular networks, wireless communication, and distributed systems. The session accepts original theoretical, simulation-based, and experimental work spanning AI-driven, blockchain-based, network security, and general networking and IoT research.

RECOMMENDED TOPICS:

Topics to be discussed in this special session include (but are not limited to) the following:

- Artificial Intelligence and Machine Learning for Network and IoT Security
- Blockchain-based Trust, Identity, and Access Management in Networks
- Security and Privacy in IoT and Cyber-Physical Systems
- Intrusion, Anomaly, and Misbehaviour Detection in Distributed Networks
- Vehicular Networks, V2X, and Intelligent Transportation Systems Security
- Blockchain and Smart Contracts for Secure Data Sharing in Networks
- AI and Blockchain Integration for Network Automation and Trust
- Federated and Edge Learning for Secure Networked Systems
- Artificial Intelligence and Machine Learning for Network and IoT Security
- Blockchain-based Trust, Identity, and Access Management in Networks
- Security and Privacy in IoT and Cyber-Physical Systems
- Intrusion, Anomaly, and Misbehaviour Detection in Distributed Networks
- Vehicular Networks, V2X, and Intelligent Transportation Systems Security
- Blockchain and Smart Contracts for Secure Data Sharing in Networks
- AI and Blockchain Integration for Network Automation and Trust
- Lightweight Cryptography and Privacy-Preserving Protocols for IoT
- Artificial Intelligence and Machine Learning for Network and IoT Security
- Blockchain-based Trust, Identity, and Access Management in Networks
- Security and Privacy in IoT and Cyber-Physical Systems
- Intrusion, Anomaly, and Misbehaviour Detection in Distributed Networks
- Vehicular Networks, V2X, and Intelligent Transportation Systems Security
- Blockchain and Smart Contracts for Secure Data Sharing in Networks
- AI and Blockchain Integration for Network Automation and Trust
- Network Architectures, Protocols, and Standardization (5G/6G, NTN, SDN)

SUBMISSION PROCEDURE:

Researchers and practitioners are invited to submit papers for this particular theme session on **Intelligent and Secure Networks: AI and Blockchain for IoT and Next-Generation Communication Systems** *on or before* [30th August 2026]. All submissions must be original and may not be under review by another publication. INTERESTED AUTHORS SHOULD CONSULT THE CONFERENCE'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at <https://www.icain-conf.com/downloads>. All submitted papers will be reviewed on a double-blind, peer-review basis.

NOTE: While submitting a paper in this special session, please specify [Session Name] at the top (above paper title) of the first page of your paper.
