

ICAIN-2026
International Conference on Artificial
Intelligence and Networking

26th -28th November 2026
Organized by
Universal Inovator & UI-Educon
In association with
Indian Institute of Information Technology, Allahabad

******* CALL FOR PAPERS *******

SPECIAL SESSION ON

[Secure and Trustworthy Generative AI for Autonomous Cyber Threat Intelligence in Modern Networked Systems]

SESSION ORGANIZERS:

[Dr. Namita Dahiya, Dr. Manvi Breja, The NorthCap University, Gurugram, India,
namitadahiya@ncuindia.edu, manvibreja@ncuindia.edu]

EDITORIAL BOARD: (Optional)

[Name, University or Organization, Country, e-mail]

SESSION DESCRIPTION:

[This special session explores the transformative role of Generative AI in enabling autonomous cyber threat intelligence across modern networked systems, including cloud, edge, IoT, and other -defined infrastructures. As cyber threats become increasingly sophisticated and adaptive, AI-driven approaches offer powerful capabilities for real-time threat detection, predictive analysis, and automated response. However, the integration of generative models also introduces critical challenges related to security, trustworthiness, and adversarial vulnerabilities. The session aims to bring together researchers and practitioners to discuss innovative solutions that leverage Generative AI, adversarial machine learning, and advanced analytics for building resilient and secure networked environments. It covers both offensive and defensive perspectives, focusing on developing robust, explainable, and privacy-preserving AI systems for next-generation cybersecurity applications.]

RECOMMENDED TOPICS:

Topics to be discussed in this special session include (but are not limited to) the following:

- Generative AI for Automated Cyber Threat Intelligence.
- AI-Driven Malware Detection and Classification.

- Adversarial Machine Learning in Cybersecurity.
- GAN-Based Cyber Threat Modeling and Synthetic Data Generation.
- AI-Enabled Anomaly Detection in Cloud, Edge, and IoT Networks.
- Trustworthy and Explainable AI for Cyber Defense.
- Privacy-Preserving AI Techniques in Cybersecurity.
- Security Challenges of Generative AI in Networked Systems.

SUBMISSION PROCEDURE:

Researchers and practitioners are invited to submit papers for this particular theme session on [Secure and Trustworthy Generative AI for Autonomous Cyber Threat Intelligence in Modern Networked Systems] *on or before* [30th August 2026]. All submissions must be original and may not be under review by another publication. INTERESTED AUTHORS SHOULD CONSULT THE CONFERENCE'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at <https://www.icain-conf.com/downloads>. All submitted papers will be reviewed on a double-blind, peer-review basis.

NOTE: While submitting a paper in this special session, please specify [Secure and Trustworthy Generative AI for Autonomous Cyber Threat Intelligence in Modern Networked Systems] at the top (above paper title) of the first page of your paper.
